Education

Dr. A. P. J. Abdul Kalam Technical University

Bachelor of Technology - Computer Science

Dec 2020 - July 2024

Ghaziabad, UP

Technical Skills

Languages: C++, Python, HTML5, CSS3, JavaScript, Node.js

Frameworks & Tools: Express.js, React.js, Redux, Tailwind CSS, Shadcn UI, MongoDB, Supabase, Clerk, SQL, Git, Bootstrap, Ant Designs, Render, Netlify, VScode

Relevant Courses: Data Structures & Algorithms, OOP, DBMS, Computer Networking, Operating Systems

Experience

Alfabeto Global | Software Developer

06/24 – 09/24

- * Leveraged the Exam platform with features like automated exam scheduling, result tracking, and integrated student-teacher communication, improving operational efficiency and reducing scheduling errors by nearly **50%**.
- * Applied React patterns such as **hooks** to create **reusable** components and redesigned the user interface to simplify navigation, reducing **support ticket volume** by over 50%.
- * Implemented backend data validation, JWT, error handling, and **API integration**, ensuring a seamless user experience with minimal **downtime delays** during maintenance or outages, while using **Git** for version control and efficient collaboration.

Let's Grow More | Frontend Developer Intern

03/23 – 04/23

- * Developed and optimized projects like a To-Do List, Weather App, and Calculator, showcasing expertise in building intuitive, user-friendly interfaces and seamless functionality while mentoring peers on best practices.
- * Utilized modern React practices such as hooks to create reusable components, enhancing maintainability, responsiveness, and fostering collaboration through mentorship.

Projects

SpendWise | React.js, Express.js, MongoDB, Node.js, Bootstrap, Ant design | **Project Link**

- * Developed a **full-featured financial tracking system** with real-time logging, categorization, and insightful visualizations for personalized budgeting and financial planning.
- * Built secure user authentication and authorization in **ExpressJs**, ensuring privacy for sensitive financial data, while MongoDB powers real-time data management for tracking, filtering, and historical expense summaries.
- * Designed a responsive UI with **Ant Design** and optimized for desktop and mobile, making it accessible for users to track and review expenses conveniently on any device.

Job Portal | React.js, Javascript, Supabase, Clerk, Redux Toolkit, Tailwind CSS, ShadCN | **Project Link**

- * Built a Job Portal application using React.js, designed for **candidates** to apply and view job status, save jobs, and for **recruiters** to post and manage job listings, with **Clerk** handling secure user authentication.
- * Integrated **Supabase** for backend operations, enabling real-time data updates for job postings and applications, and utilized Redux Toolkit for efficient state management across user roles.
- * Designed a modern, responsive UI using **ShadCN** and **Tailwind CSS**, ensuring cross-device compatibility and a visually appealing user experience.

My Portfolio | React.js, CSS3, JavaScript, Tailwind CSS | **Project Link**

- * Crafted an animated and fully responsive personal portfolio website to showcase projects, achievements, and skills, leveraging modern web technologies to deliver an immersive user experience.
- * Integrated smooth transitions and interactive elements using React.js and CSS animations, ensuring a visually engaging interface optimized for all devices with advanced media queries.

Achievements

- * Finalist among top 15 teams in **Smart India Hackathon '23**.
- * CCNA Certified in Introduction to Networks by Cisco Networking Academy | [Link](#).
- * Cleared 1st Round Flipkart GRID 4.0 conducted by Flipkart.
- * Secured **24th Global Rank** in **CodeChef Long Challenge '22** | [Link](#).
